Speakers

Stefaan Van Dyck
President, Animal Nutrition and Health – EMENA

Dr. Stefaan Van Dyck is president of Kemin Animal Nutrition and Health – EMENA (Europe, Middle East, North Africa). He has spent his career with Kemin, assuming his current role in 2018.

In 2001, after defending his doctoral thesis in organic chemistry, Dr. Van Dyck began working as a chemistry manager for the business unit he currently leads, then serving the EMEA (Europe, Middle East, Africa) region. His responsibilities in research and development (R&D) increased over the years, bringing to fruition a wide range of feed additives, such as mycotoxin binders and absorption enhancers. In 2008, Dr. Van Dyck became a member of the Kemin Animal Nutrition and Health – EMEA executive team with responsibility for R&D, quality control/quality assurance, regulatory affairs and Customer Lab Services. He was appointed global R&D director for all Kemin Animal Nutrition and Health business units in 2010. In 2013, he moved into marketing as vice president. A year later, Dr. Van Dyck became president of Kemin Food Technologies – EMEA, a position he held prior to his current role.

In 2008, Dr. Van Dyck became a guest professor at the University of Antwerp, where he currently teaches food chemistry to students pursuing a master's degree in chemistry. Dr. Van Dyck has been invited to speak at multiple conferences and courses, presenting on topics related to functional ingredients such as antioxidants, mycotoxins, enzymes and lecithins, as well as business development and industrial marketing.

Dr. Van Dyck is the author of several peer-reviewed publications and chapters in books on food and feed oxidation and business-to-business marketing. During his tenure at Kemin, Dr. Van Dyck has been awarded several patents for the formulation of functional food and feed additives.

Dr. Van Dyck earned his doctorate from the University of Antwerp, where he also obtained his Master of Business Administration (MBA) from the Management School in 2006.

Mohamed Talaat Manaa
Veterinary surgeon- GM, Alzaher Gulf Trading group

In 2003, after his graduation from Faculty of veterinary medicine, Alexandria university, Dr. Manaa began his career as veterinary doctor at the Authority of food and nutrition in the State of Kuwait. Based on his high studies and field experience in Equine surgery, Dr. Manaa joined Kuwait Riding center, KRC, as veterinary surgeon, then he established and managed the veterinary medicine and animal feed business unit at KRC.

In 2014, Dr. Manaa joined TRM-Ireland which is the global leading manufacturer of equine supplement products as MENA area manager.

In 2016, Dr. Manaa established Alzaher Gulf Group, RTE-VET, in cooperation with his colleague Dr. Wael Alshafey, to serve as a leading veterinary supplier in the Arab gulf countries and Egypt.

Speakers

Eric N'guetta
Product Manager Intestinal Health - Animal Nutrition & Health division, EMENA

Eric N'guetta is currently Product Manager for Intestinal Health at Kemin Animal Nutrition and Health, Europe Middle east and North Africa (EMENA). He obtained a graduate engineering degree from the agronomy school based in Nancy, France, focusing on biotechnology (2013) and a master's degree in management from IAE Nancy, France (2013). He first built an expertise in poultry and feed additives working in research and development in Europe to promote ingredients that support intestinal health. He also worked as an innovation project manager to bring new ingredients and services to the animal nutrition and health market. He focuses on connecting scientific, technical, and marketing knowledge to promote intestinal health in Poultry across EMENA.

Anas Abdelqader, Ph.D.
Professor of Poultry Science - University of Jordan

Professor Anas Abdelqader is currently a professor of poultry science at the University of Jordan. In 2007, he received his Ph.D. degree from the University of Göttingen, Germany. Research interests focus on finding practical approaches that enhance gut health and nutrient utilization in farm animals. His focal point is promoting the well-being of farm animals to promote food quality and people's health.

Mutasem Alhaddad
Technical Service Manager Health Products ME.

Graduated from Jordan University of science and Technology in Veterinary Medicine and Surgery BVMS in 2014 and worked for several years in the feed additive industry, to eventually join Kemin in 2019 as Technical Service Manager for health products. Now studying postgraduate program in poultry health sciences at Ghent University.
